

CANINE TUTORIALS – HOW IT WORKS

-  Canine Tutorials is an individualized service that involves both **Donna** and **Laura** working together for you as a team. We use our skills and experience to create a plan that you can incorporate in your life and one that reinforces and creates behaviors that your adult dog will choose to follow.
-  **Donna** will provide a tutorial plan for you that engages you and your dog, in whatever setting or scenario that lesson needs to be in. **Laura** will be there to narrate, highlighting canine signals that will help you to understand your own dog's body language.
-  We want to help you identify and solve stumbling blocks in your dog's training that are preventing your dog from being calm and behaved. We can show you how enjoyable it can be to connect with your dog.
-  We can use our Go Pro camera to record your tutorial session and provide you with a copy. This will be a great tool that you can reference to set in learning.
-  Please complete the [Wagging Fun Puppy Intake & Liability Waiver](#) when we meet up.
-  We can also provide additional support through our other offered services delivering continuity for owners and their puppies. We have integrative canine care and training services that cover an owner's variety of needs over the lifespan of your pet(s). And of course, we continue to work with other talented professional trainers who specialize in atypical canine behaviors that we can refer you to.
